«BELOGNA IKONS»

« LUXURY VILLAS & SUITES »

RATES ON R/R BASIS

Belogna ikons was designed, built and equipped based on the upbringing, the life experiences, and the dreams of people who got to know the traditional Naxos and followed the island's course in the last 5 decades. Their main ambition is to circumvent the frivolous attitude and the voluntarily or involuntarily unawareness of tradition that leads to architectural tasteless or to incompatibility with the surrounding natural environment. Belogna ikons is meant for those who are familiar to the authentic Cyclades, especially Naxos, and for those who pursue to discover that authenticity. The location was not picked arbitrarily; the complex is built next to the Tower of Belogna, a landmark of Naxos, a symbol of tradition and an emblem of savor. Belogna ikons, bowing to the magnitude of the Tower, dares the comparison seeking to fit next to the Tower without offending it. Belogna ikons allows you to gaze at Naxos and its capital, without depriving you from the proximity to the water – large swimming pool instead of personal bath tab-type pools, easy access to the beaches – and a comfortable accommodation.

They are located 4 kms (2.5 miles) from the capital (port) of Naxos (5-6 minutes drive) at a nodal point of the island's main road arteries. The famous west beaches (Agia Anna, Agios Prokopios, Plaka, Vigla, Kastraki, Pirgaki) are easily accessible, at a distance that does not exceed 4 kms. Moreover, the main road that leads to Naxos' villages is only a few meters away from the complex's entrance. For ancient sites enthusiasts, Belogna ikons is located very close to the Tower of Belogna, to Yria (Glinado) and to the temple of Dimitra (Sagri).

The creation of Belogna ikons is the fulfillment of an idea suggesting that if a building complex is in harmony with the dynamics of the natural environment it resides on, then it offers its inhabitants peace, comfort, discreet luxury, a bonding with nature and an enjoyable stay at a hospitable setting.

The villas of Belogna ikons are different among themselves, since the houses of traditional Cycladic settlements were also different among themselves. They are built on slope, in order for every villa to have its private external space, including the parking area, and unobstructed view to the Aegean Sea. From each veranda, one can see clearly Paros, Mykonos and Syros and feel the infinite blue of the sea.
